On September 15, 2003 ALLETE announced that its subsidiary, Florida Water Services Corporation (Florida Water), closed on a sale, by condemnation, of its water and wastewater system serving Marion County, Florida. The system has been sold to Marion County for approximately \$22 million.

Florida Water has been in the process of selling its assets as part of an ALLETE strategic initiative to exit its water businesses. Presently, approximately 85 percent of Florida Water's assets have been sold, or are under contract to be sold, for \$417 million. To date, these completed and contracted sales are expected to result in an after-tax gain to Florida Water of approximately \$75 million and net cash proceeds of approximately \$210 million, after transaction costs, retirement of Florida Water's debt and payment of income taxes. Net proceeds from these sales will be used to retire debt at ALLETE.

Florida Water continues to seek buyers for its remaining systems.

is made, and ALLETE undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which that statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time and it is not possible for management to predict all of those factors, nor can it assess the impact of each of those factors on the businesses of ALLETE or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement.
