SECTION 8 – OTHER EVENTS

Item 8.01 Other Events.

On May 6, 2015, ALLETE Clean Energy, a wholly-owned subsidiary of ALLETE, Inc. (NYSE: ALE), announced that it has agreed to acquire 100 percent of AES Armenia Mountain Wind, LLC, a 100.5 Megawatt wind facility near Troy, Pennsylvania from The AES Corporation and a non-controlling interest from a minority shareholder for a total of \$108 million, plus the assumption of existing debt. A copy of the press release is filed as Exhibit 99 to this Current Report on Form 8-K and is incorporated herein by reference.

SECTION 9 – FINANCIAL STATEMENTS AND EXHIBITS

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit Number

99 ALLETE Clean Energy's press release dated May 6, 2015.

Readers are cautioned that forward-looking statements should be read in conjunction with ALLETE's disclosures under the heading: "Forward-Looking Statements" located on page 2 of this Form 8-K.

ALLETE Form 8-K dated May 6, 2015

Forward-Looking Statements

Statements in this report that are not statements of historical facts are considered “forward-looking” and, accordingly, involve risks and uncertainties that could cause actual results to differ materially from those discussed. Although such forward-looking statements have been made in good faith and are based on reasonable assumptions, there is no assurance that the expected results will be achieved. Any statements that express, or involve discussions as to, future expectations, risks, beliefs, plans, objectives, assumptions, events, uncertainties, financial performance, or growth strategies (often, but not always, through the use of words or phrases such as “anticipates,” “believes,” “estimates,” “expects,” “intends,” “plans,” “projects,” “likely,” “will continue,” “could,” “may,” “potential,” “target,” “outlook” or words of similar meaning) are not statements of historical facts and may be forward-looking.

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are providing this cautionary statement to identify important factors that could cause our actual results to differ materially from those indicated in forward-looking statements made by or on behalf of ALLETE in this Current Report on Form 8-K, in presentations, on our website, in response to questions or otherwise. These statements are qualified in their entirety by reference to, and are accompanied by, the following important factors, in addition to any assumptions and other factors referred to specifically in connection with such forward-looking statements that could cause our actual results to differ materially from those indicated in the forward-looking statements:

- our ability to successfully implement our strategic objectives;
- global and domestic economic conditions affecting us or our customers;
- wholesale power market conditions;
- federal and state regulatory and legislative actions that impact regulated utility economics, including our allowed rates of return, capital structure, ability to secure financing, industry and rate structure, acquisition and disposal of assets and facilities, operation and construction of plant facilities and utility infrastructure, recovery of purchased power, capital investments and other expenses, including present or prospective environmental matters;
- changes in and compliance with laws and regulations;
- effects of competition, including competition for retail and wholesale customers;
- effects of restructuring initiatives in the electric industry;
- changes in tax rates or policies or in rates of inflation;
- the impacts on our Regulated Operations segment of climate change and future regulation to restrict the emissions of greenhouse gases;
- the impacts of laws and regulations related to renewable and distributed generation;
- the outcome of legal and administrative proceedings (whether civil or criminal) and settlements;
- weather conditions, natural disasters and pandemic diseases;
- our ability to access capital markets and bank financing;
- changes in interest rates and the performance of the financial markets;
- project delays or changes in project costs;
- availability and management of construction materials and skilled construction labor for capital projects;
- changes in operating expenses and capital expenditures and our ability to recover these costs;
- pricing, availability and transportation of fuel and other commodities and the ability to recover the costs of such commodities;
- our ability to replace a mature workforce and retain qualified, skilled and experienced personnel;
- effects of emerging technology;
- war, acts of terrorism and cyber attacks;
- our ability to manage expansion and integrate acquisitions;
- our current and potential industrial and municipal customers’ ability to execute announced expansion plans;
- population growth rates and demographic patterns; and
- zoning and permitting of land held for resale, real estate development or changes in the real estate market.

Additional disclosures regarding factors that could cause our results or performance to differ from those anticipated by this report are discussed in Item 1A under the heading “Risk Factors” beginning on page 29 of ALLETE’s Annual Report on Form 10-K for the year ended December 31, 2014. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which that statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for management to predict all of these factors, nor can we assess the impact of each of these factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Readers are urged to carefully review and consider the various disclosures made by ALLETE in this Current Report on Form 8-K and in our other reports filed with the SEC that attempt to identify the risks and uncertainties that may affect ALLETE’s business.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

NEWS

ALLETE Clean Energy signs purchase agreement with The AES Corporation for 100.5 Megawatt Armenia Mountain wind facility near Troy, Pa.

Duluth, Minn.-ALLETE Clean Energy, a wholly-owned subsidiary of ALLETE, Inc. (NYSE: ALE), has agreed to acquire 100 percent of AES Armenia Mountain Wind, LLC, (Armenia Mountain) a 100.5 Megawatt (MW) wind facility near Troy, Pa., from The AES Corporation (AES) and a non-controlling interest from a minority shareholder for a total of \$108 million, plus the assumption of existing debt.

ALLETE Clean Energy (ACE) had an option to purchase the Armenia Mountain facility, which was exercised on April 1; a purchase agreement with AES was signed April 30. Closing is expected in July 2015.

Located in the busy PJM electricity market near the New York-Pennsylvania border, Armenia Mountain's 67, 1.5MW General Electric wind turbines were installed in 2009. All the facility's energy output is sold through existing power purchase agreements that extend through 2025.

This is the fourth wind facility ACE has acquired from AES and the seventh in its portfolio. In January of 2014, the ALLETE subsidiary finalized the acquisition of wind energy projects with a total capacity of 231MW in Lake Benton, Minn., Storm Lake, Iowa, and Condon, Ore., from AES. Armenia Mountain is the largest and newest of the wind installations acquired by ACE.

"This acquisition continues our steady growth, with ACE's operating assets to total 540MW," said ALLETE Clean Energy President Eric Norberg. "By moving into a different area of the country with a thriving renewable energy market, ACE builds upon its operational and entrepreneurial experience."

"ALLETE continues to successfully execute and integrate the major planks within our broader energy strategy," said ALLETE Chairman, President and CEO Al Hodnik. "ALLETE's combined portfolio of operating wind assets from ACE and Minnesota Power will total nearly 1,000 megawatts. This latest transaction reinforces our belief that a more sustainable energy future relying less on carbon will mold the North American energy landscape over the long haul."

In November of 2014, ALLETE Clean Energy also finalized a major development agreement with Montana-Dakota Utilities, a division of MDU Resources Group (NYSE: MDU), acquiring the rights to develop and construct a 107MW wind facility near Hettinger, N.D., and then sell the project to Montana-Dakota for approximately \$200 million, pending regulatory approval.

Morgan Stanley is acting as financial advisor to ALLETE Clean Energy for this transaction.

ALLETE Clean Energy was established in 2011 to acquire or develop capital projects to create energy solutions by way of wind, solar, biomass, hydro, natural gas, shale resources, clean coal technology and other emerging energy innovations.

ALLETE, Inc. is an energy company headquartered in Duluth, Minnesota. In addition to its electric utilities, Minnesota Power and Superior Water, Light and Power of Wisconsin, ALLETE owns ALLETE Clean Energy, based in Duluth, BNI Coal in Center, N.D., U.S. Water Services in St. Michael, Minnesota, and has an eight percent equity interest in the American Transmission Co. More information about ALLETE is available at www.allete.com.

The statements contained in this release and statements that ALLETE may make orally in connection with this release that are not historical facts, are forward-looking statements. These forward-looking statements involve risks and uncertainties and investors are directed to the risks discussed in documents filed by ALLETE with the Securities and Exchange Commission.
