Note 2. Regulatory Matters

FPSC Refund Order in Connection with 1991 Rate Case. Responding to a Florida Supreme Court decision addressing the issue of retroactive ratemaking with respect to another company, in March 1996 the FPSC voted to reconsider an October 1995 order (Refund Order) which would have required Florida Water to refund about \$15 million, which includes interest, to customers who paid more since October 1993 under uniform rates than they would have paid under stand-alone rates. Under the Refund Order, the collection through a surcharge of the \$15 million from customers who paid less under uniform rates was not permitted. The Refund Order was in response to the Florida First District Court of Appeals (Court of Appeals) reversal in April 1995 of the 1993 FPSC order which imposed uniform rates for most of Florida Water's service areas in Florida. With "uniform rates," all customers in the uniform rate areas pay the same rates for water and wastewater services. Uniform rates are an alternative to "stand-alone" rates which are calculated based on the cost of serving each service area. The FPSC reconsidered the Refund Order, but in August 1996 the FPSC issued an order upholding by a 3 to 2 vote its decision to order refunds without offsetting surcharges. Florida Water filed an appeal of this decision with the Court of Appeals.

On June 17, 1997 the Court of Appeals reversed the FPSC's August 1996 order. The Court of Appeals determined that the FPSC's order directing the refund without permitting an offsetting surcharge was not permissible because it did not comport with principles of equity or with existing Florida Supreme Court precedent. The Court of Appeals remanded the matter back to the FPSC for reconsideration, and directed the FPSC to consider requests for intervention from the various customer groups impacted by any potential surcharges. The issues to be considered on remand relate to rate design and do not involve any adjustment to Florida Water's revenue requirement. The Company has not recorded a provision for refund in connection with this case. The Company is unable to predict the outcome of this matter.

Florida Water's 1995 Rate Case. Florida Water requested an \$18.1 million rate increase in June 1995 for all water and wastewater customers of Florida Water regulated by the FPSC. On October 30, 1996 the FPSC issued its final order in the Florida Water rate case. The new rates, which became effective as of September 20, 1996, resulted in an annualized increase in revenue of approximately \$11.1 million. This increase included, and was not in addition to, the \$7.9 million increase in annualized revenue granted as interim rates effective on January 23, 1996. The FPSC approved a new rate structure called "capband," which replaces uniform rates. With capband rates, areas with similar cost of service are grouped into one of a number of rate bands, and all customers within a given band are charged the same rate. This rate structure is designed so that a customer's bill will not exceed a certain "cap" unless the customer's usage exceeds an assumed level. On November 1, 1996 Florida Water filed with the Court of Appeals an appeal of the FPSC's final order seeking judicial review of issues relating to the amount of investment in utility facilities recoverable in rates from current customers. Other parties to the rate case also filed appeals with the Court of Appeals regarding the FPSC's final order. The Company is unable to predict the outcome of this matter.

Effective June 13, 1997 Florida Water resumed collecting pre-existing Allowance for Funds Prudently Invested (AFPI) charges. AFPI represents the accrued carrying cost of certain non-used and useful property excluded from rate base and is collected as a one-time charge to certain new water and wastewater customers. The recovery of AFPI charges at certain Florida Water service areas was reduced or eliminated in the FPSC's October 1996 final order issued in connection with Florida Water's 1995 rate case. In April 1997 the FPSC, acting on Florida Water's motion, allowed recovery of pre-existing AFPI charges for these service areas, subject to refund with interest in the event of an adverse court ruling in the appeal of the 1995 rate case. Florida Water estimates approximately \$1 million, on an annual basis, will be collected and accounted for as deferred revenue pending results of the appeal.

Hernando County Rates. As required by Hernando County, on April 14, 1997 Florida Water filed for a rate change with the Hernando County Board of Commissioners. Florida Water filed for an annual interim rate reduction of \$258,780 (-3.3 percent) and a final rate increase of \$123,897 (1.6 percent). On June 14, 1997 the final rate increase Florida Water requested became effective automatically by operation of law because Hernando County failed to take action on the rates within the prescribed statutory period.

Note 2. Regulatory Matters (Continued)

In July 1997 Florida Water reached a settlement agreement with Hernando County regarding the rate case Florida Water filed in April 1997. Under the settlement agreement, new rates will be effective September 1, 1997 and are expected to result in \$6.3 million of revenue on an annual basis, a \$1.6 million decrease from current revenue levels implemented on June 14, 1997. Rates will then be increased January 1, 1999 to result in \$7.2 million in revenue on an annual basis. Florida Water has also agreed not to file for new rates with Hernando County prior to September 2000. All litigation was dismissed by both parties.

Florida Water's settlement agreement with Hernando County supersedes the FPSC's February 14, 1997 order which required Florida Water to charge rates to customers in Hernando County based on a modified stand-alone rate structure.

Hillsborough County Rates. On July 2, 1997 Florida Water filed for a rate change with the Hillsborough County Utilities Department. Florida Water filed for an annual interim rate increase of \$848,845 (43.1 percent) and a final rate increase of \$877,607 (44.6 percent). Interim rates are anticipated to become effective 45 days from the date of the filing. The Company is unable to predict the outcome of this case.

Index Filings. In July 1997 Florida Water filed two index filings which if approved will increase revenue by \$436,000. Approval is expected on or about October 1, 1997. Under Florida law water and wastewater utilities may make an annual index filing designed to recover inflationary costs associated with operation and maintenance expense.

Note 3. Square Butte Purchased Power Contract

The Company has a contract to purchase power and energy from Square Butte. Under the terms of the contract which extends through 2007, the Company is purchasing 71 percent of the output from a generating plant which is capable of generating up to 470 MW. Reductions to about 49 percent of the output are provided for in the contract and, at the option of Square Butte, could begin after a five-year advance notice to the Company.

The cost of the power and energy is a proportionate share of Square Butte's fixed obligations and variable operating costs, based on the percentage of the total output purchased by the Company. The annual fixed obligations of the Company to Square Butte are \$20.1 million from 1997 through 2001. The variable operating costs are not incurred unless production takes place. The Company is responsible for paying all costs and expenses of Square Butte if not paid by Square Butte when due. These obligations and responsibilities of the Company are absolute and unconditional whether or not any power is actually delivered to the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Minnesota Power has operations in four business segments: (1) electric operations, which include electric and gas services, and coal mining; (2) water services, which include water and wastewater services; (3) automotive services, which include auctions, a finance company and an auto transport company; and (4) investments, which include a securities portfolio, a 21 percent equity investment in a financial guaranty reinsurance company, and real estate operations.

Earnings per share of common stock for the quarter ended June 30, 1997 were 60 cents compared to 49 cents for the quarter ended June 30, 1996. Significant increases from electric operations and automotive services were the primary contributors to higher earnings in 1997. Higher earnings from electric operations include compensation from the Company's sale of its rights to microwave frequencies and property tax relief from the State of Minnesota. Automotive services earnings are higher due to a 28 percent increase in the number of cars sold at ADESA's auctions and the expansion of AFC's floor plan financing business. In 1996 portfolio and reinsurance included a one-time tax benefit for an IRS audit adjustment.

Earnings per share of common stock for the six months ended June 30, 1997 were \$1.12 compared to \$1.10 for the six months ended June 30, 1996. Earnings in 1997 reflect a significant increase in automotive services due to a 28 percent increase in the number of cars sold at ADESA's auctions and the expansion of AFC's floor plan financing business. 1997 earnings also reflect a solid performance from electric operations and consistent performance by the portfolio and reinsurance portion of the investments segment. In 1996 portfolio and reinsurance included a one-time tax benefit for an IRS audit adjustment. Corporate charges and other reflect increased debt service costs as a result of the higher balance of commercial paper in 1997 and six months of distributions with respect to the Cumulative Quarterly Income Preferred Securities issued in March 1996. Earnings in 1996 include a gain in water services from the sale of water assets and the sale of a joint venture interest by real estate.

Consolidated Financial Comparison Quarters Ended June 30, 1997 and 1996.

Operating revenue and income was up \$21.9 million (10.5 percent) due primarily to an increase in the number of cars sold at ADESA's auctions. An increase in real estate sales also contributed to the increase in operating revenue and income.

Fuel and purchased power were down \$2.3 million (4.8 percent) because of a 16 percent decrease in generation at the Company's coal fired generating stations due to unscheduled outages and a 9 percent reduction in power purchased from other suppliers. The price of purchased power was substantially higher per megawatthour because of a limited supply available for purchase and additional transmission fees assessed for the delivery of power within the Midwest.

Operations expenses were up \$11.3 million (8.8 percent), reflecting the expansion of ADESA's automobile auction operations, AFC, ISI and Palm Coast.

Interest expense was higher in 1997 due primarily to a higher balance of commercial paper. $\ensuremath{\mathsf{A}}$

Income tax expense was significantly higher in 1997 due to the \$11.7 million increase in operating income and the recognition of a \$2 million tax benefit by Lehigh in 1996.

Consolidated Financial Comparison Six Months Ended June 30, 1997 and 1996.

Operating revenue and income was up \$41.3 million (10 percent), primarily due to the addition of ADESA's nine new auction sites and increased car sales at existing ADESA auctions. Also, revenue from water services was higher in 1997 because of increased rates approved by the FPSC effective in September 1996. The increase was partially offset by lower revenue following the sale of two water systems by Heater in 1996. A \$1.1 million pre-tax gain on the sale of one water system in South Carolina was recognized in March 1996.

Operations expenses were up \$29.8 million (12.1 percent). The increase reflected \$14.1 million of expenses from the eight automobile auction sites added by ADESA in 1996 and one auction site added in 1997. The expansion of AFC, and acquisitions of ISI and Palm Coast, also increased operations expense in 1997.

Interest expense was higher in 1997 due primarily to more commercial paper issued.

Distributions on redeemable preferred securities of subsidiary were higher in 1997 because the securities were outstanding for the six months in 1997 compared to less than four months in 1996.

Income tax expense was significantly higher in 1997 due to the \$9.3 million increase in operating income and the recognition of a \$2 million tax benefit by Lehigh in 1996.

Business Segment Comparison Quarters Ended June 30, 1997 and 1996.

Electric Operations. Operating revenue and income was up slightly in 1997. Proceeds from the sale of rights to microwave frequencies and the sale of river land to the State of Minnesota offset a decline in revenue from an 11 percent decrease in total kilowatthour sales. Kilowatthour sales for resale by MPEX, the Company's power marketing division, were down 40 percent in 1997 due to less power available for resale. Less power was available because of higher prices for purchased power, various generating unit outages, reduction in transmission capability damaged by severe spring storms in the Midwest and less hydro generation in Canada. While revenue from MPEX sales was lower in 1997, higher profit margins were realized on these sales.

Revenue from electric sales to taconite customers accounted for 31 percent of electric operating revenue in 1997 compared to 33 percent in 1996. Electric sales to paper and other wood-products companies accounted for 12 percent of electric operating revenue in 1997 and 11 percent in 1996. Sales to other power suppliers accounted for 12 percent of electric operating revenue in 1997 compared to 15 percent in 1996.

Total electric operating expenses decreased by \$5.2 million in 1997 including a \$2.3 million decrease in fuel and purchased power because of reduced kilowatthour sales. Recent reform of the Minnesota property tax system also reduced operating expenses in 1997.

Water Services. Operating revenue and income from water services was lower in 1997 primarily due to lower revenue following the sale of two water systems by Heater in 1996 and lower consumption by customers in Florida and North Carolina. Operating expenses were also lower because of ongoing cost controls and improved operating efficiency.

Automotive Services. Operating revenue and income was \$19.2 million higher in 1997 due primarily to the addition of nine new automobile auction sites and increased sales at existing sites. ADESA sold 204,000 cars in 1997 compared to 160,000 in 1996. Growth of AFC's floor plan financing business and increased transport business also increased revenue and income. Operating expenses were higher in 1997 because of the addition of nine auction sites and increased activity at existing sites. The expansion of AFC's floor plan financing business also contributed to higher operating expenses.

Investments.

- Securities Portfolio and Reinsurance. The Company's securities portfolio and reinsurance continued to perform well in 1997 as in 1996. Capital Re's contribution to earnings increased in 1997. A one-time tax benefit for an IRS audit adjustment was included in 1996.
- Real Estate Operations. Revenue was up in 1997 as a result of additional sales of properties at Palm Coast. Expenses also were higher due to expanded operations. The recognition of \$2 million of tax benefits at Lehigh in 1996 made real estate's contribution to net income higher in 1996 than 1997.

Business Segment Comparison Six Months Ended June 30, 1997 and 1996.

Electric Operations. Operating revenue and income from electric operations was up slightly in 1997. Proceeds from the sale of rights to microwave frequencies and the sale of river land to the State of Minnesota offset a decline in revenue resulting from a 7 percent decrease in total kilowatthour sales. The decrease is attributed to a decline in sales to other power suppliers due to less power available for resale. Less power was available because of higher prices for purchased power, various generating unit outages, reduction in transmission capability damaged by severe spring storms in the Midwest and less hydro generation in Canada. The decrease in kilowatt sales was partially offset by an increase in sales to paper customers because of a higher demand for paper.

Revenue from electric sales to taconite customers accounted for 32 percent of electric operating revenue in 1997 and 1996. Electric sales to paper and other wood-products companies accounted for 12 percent of electric operating revenue in 1997 and 11 percent in 1996. Sales to other power suppliers accounted for 10 percent of electric operating revenue in 1997 compared to 12 percent in 1996.

Total electric operating expenses decreased by \$5.2 million in 1997 including a \$1.9 million decrease in fuel and purchased power because of reduced kilowatthour sales. Lower property taxes due to the 1997 reform of the Minnesota property tax system and lower interest charges also contributed to the cost reductions in 1997 operating expenses.

Water Services. Operating revenue and income from water services was higher in 1997 primarily because of increased rates approved by the FPSC in 1996 for Florida Water customers. The increase was partially offset by lower revenue following the sale of two water systems by Heater in 1996. A \$1.1 million pre-tax gain on the sale of one water system in South Carolina was recognized in March 1996.

Automotive Services. Operating revenue and income was \$40 million higher in 1997 due primarily to the addition of nine new automobile auction sites and increased sales at existing sites. ADESA sold 391,000 cars in 1997 compared to 305,000 in 1996. Growth of AFC's floor plan financing business, increased transport business and a gain on the sale of an auction also increased revenue and income. Operating expenses were higher in 1997 because of the addition of nine auction sites and increased activity at existing sites. The expansion of AFC's floor plan financing business also contributed to higher operating expenses.

Investments.

- Securities Portfolio and Reinsurance. The Company's securities portfolio and reinsurance earned an annualized after tax return of 8.6 percent in 1997 compared to 9.8 percent in 1996. A one-time tax benefit for an IRS audit adjustment was included in 1996.
- Real Estate Operations. Revenue was down in 1997 compared to 1996 which included \$3.7 million from the sale of Lehigh's joint venture investment in a resort and golf course. The April 1996 acquisition of Palm Coast increased 1997 operating revenue and expenses. The recognition of \$2 million of tax benefits at Lehigh in 1996 made real estate's contribution to net income higher in 1996 than 1997.

Liquidity and Financial Position

Reference is made to the Consolidated Statement of Cash Flows for the six months ended June 30, 1997 and 1996, for purposes of the following discussion.

Cash Flow Activities. Cash from operating activities was affected by a number of factors representative of normal operations.

Working capital, if and when needed, generally is provided by the sale of commercial paper. In addition, securities investments can be liquidated to provide funds for reinvestment in existing businesses or acquisition of new businesses, and approximately 4 million original issue shares of Common Stock are available for issuance through the DRIP.

AFC has sold a total of \$75 million of receivables to a third party purchaser since December 1996, including \$25 million in May 1997. Under the terms of a five year agreement, the purchaser agrees to make investments aggregating \$100 million, at any one time outstanding, to the extent that such investments are supported by eligible receivables. Proceeds from the sale of the receivables were used to repay borrowings from the Company.

In June 1997 Minnesota Power refinanced \$10 million of industrial development revenue bonds and \$29 million of pollution control bonds with \$39 million of Variable Rate Demand Revenue Refunding Bonds Series 1997A due June 1, 2020, Series 1997B and Series 1997C due June 1, 2013 and Series 1997D due December 1, 2007. A total of \$36.5 million of the transaction was completed in June and July. The remaining \$2.5 million of the refinancing is expected to be completed by October 1997. In May 1997 MP Water Resources' \$30 million 10.44% long-term note payable was refinanced with \$24 million of Florida Water's First Mortgage Bonds, 8.01% Series due May 30, 2017 and \$6 million of internally generated funds.

Capital Requirements. Consolidated capital expenditures for the six months ended June 30, 1997 totaled \$34 million. These expenditures include \$17 million for electric operations, \$10 million for water services and \$7 million for automotive services. Internally generated funds were the primary source for funding capital expenditures.

New Accounting Standards

In June 1997 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 130 (SFAS 130), "Reporting Comprehensive Net Income", effective for fiscal years beginning after December 15, 1997. While earlier application is permitted, the Company does not intend to do so. SFAS 130 establishes standards for reporting and display of comprehensive income in a full set of general-purpose financial statements. Comprehensive income is defined as the change in equity during a period from all transactions and other events from nonowner sources. The adoption of SFAS 130 is not expected to impact the Company's financial position or results of operations.

Also in June 1997 the FASB issued SFAS 131, "Disclosures about Segments of an Enterprise and Related Information", effective for fiscal years beginning after December 15, 1997. SFAS 131 requires the reporting of certain information about operating segments of an enterprise. The Company believes that it is already in compliance with SFAS 131 in all material respects.

In February 1997 the FASB issued SFAS 128, "Earnings per Share," effective for financial statements for both interim and annual periods ending after December 15, 1997. Earlier application is not permitted. SFAS 128 specifies the computation, presentation and disclosure requirements for earnings per share (EPS). The objective of the new standard is to simplify the computation of EPS and make the U.S. standard for this computation more compatible with the EPS standards of other countries and with that of the International Accounting Standards Committee. The adoption of SFAS 128 is expected to be immaterial to the Company's results of operations.

As required by Hernando County, on April 14, 1997 Florida Water filed for a rate change with the Hernando County Board of Commissioners. Florida Water filed for an annual interim rate reduction of \$258,780 (-3.3 percent) and a final rate increase of \$123,897 (1.6 percent). On June 14, 1997 the final rate increase Florida Water requested became effective automatically by operation of law because Hernando County failed to take action on the rates within the prescribed statutory period.

In July 1997 Florida Water reached a settlement agreement with Hernando County regarding the rate case Florida Water filed in April 1997. Under the settlement agreement, new rates will be effective September 1, 1997 and are expected to result in \$6.3 million of revenue on an annual basis, a \$1.6 million decrease from current revenue levels implemented on June 14, 1997. Rates will then be increased January 1, 1999 to result in \$7.2 million in revenue on an annual basis. Florida Water has also agreed not to file for new rates with Hernando County prior to September 2000. All litigation was dismissed by both parties.

Florida Water's settlement agreement with Hernando County supersedes the FPSC's February 14, 1997 order which required Florida Water to charge rates to customers in Hernando County based on a modified stand-alone rate structure.

On July 2, 1997 Florida Water filed for a rate change with the Hillsborough County Utilities Department. The Company filed for an annual interim rate increase of \$848,845 (43.1 percent) and a final rate increase of \$877,607 (44.6 percent). Interim rates are anticipated to become effective 45 days from the date of the filing. The Company is unable to predict the outcome of this case.

In July 1997 Florida Water filed two index filings which if approved will increase revenue by \$436,000. Approval is expected on or about October 1, 1997. Under Florida law water and wastewater utilities may make an annual index filing designed to recover inflationary costs associated with operation and maintenance expense.

"Prior First Mortgage Bond Redemption Date" is defined in Section 2.02 hereof.

"property" or "properties" means, unless otherwise specifically limited, real or personal property of any kind, tangible or intangible, choate or inchoate.

"Rentals" means and includes as of the date of any determination thereof all fixed payments (including as such all payments which the lessee is obligated to make to the lessor on termination of the lease or surrender of the property) payable by the Company or a Subsidiary, as lessee or sublessee under a lease of real or personal property, but shall be exclusive of any amounts required to be paid by the Company or a Subsidiary (whether or not designated as rents or additional rents) on account of maintenance, repairs, insurance, taxes and similar charges. Fixed rents under any so-called "percentage leases" shall be computed solely on the basis of the minimum rents, if any, required to be paid by the lessee regardless of sales volume or gross revenues.

"Required Holders" means, at any time, the Holders of at least 66-2/3% in principal amount of the Securities of the Fourth Series at the time outstanding (exclusive of Securities of the Fourth Series then owned by the Company or any of its Affiliates).

"Special Redemption" is defined in Section 2.02 hereof.

"Subsidiary" means, as to any Person, any corporation, association or other business entity in which such Person or one or more of its Subsidiaries or such Person and one or more of its Subsidiaries owns sufficient equity or voting interests to enable it or them (as a group) ordinarily, in the absence of contingencies, to elect a majority of the directors (or Persons performing similar functions) of such entity, and any partnership or joint venture if more than a 50% interest in the profits or capital thereof is owned by such Person or one or more of its Subsidiaries or such Person and one or more of its Subsidiaries (unless such partnership can and does ordinarily take major business actions without the prior approval of such Person or one or more of its Subsidiaries). Unless the context otherwise clearly requires, any reference to a "Subsidiary" is a reference to a Subsidiary of the Company.

"Wholly-owned Subsidiary" means, at any time, any Subsidiary one hundred percent (100%) of all of the equity interests (except directors' qualifying shares) and voting interests of which are owned by any one or more of the Company and the Company's other Wholly-owned Subsidiaries at such time.

ARTICLE SECOND

SECURITIES OF THE FOURTH SERIES

Section 2.01. Description of Series. There shall be a series of Securities designated "8.01% Series due May 30, 2017" (herein sometimes referred to as the "Securities of the Fourth Series"), each of which shall also bear the descriptive title "First Mortgage Bond," shall contain suitable provisions with respect to the matters hereinafter in this Article specified and shall otherwise be in the form attached to this Third Supplemental Indenture as Exhibit A. The aggregate principal amount of Securities of the Fourth Series which may be authenticated and delivered under the Indenture is limited to Twenty-Eight Million Dollars (\$28,000,000.00), except as provided in Sections 205 and 206 of the Original Indenture. Securities of the Fourth Series shall mature on May 30, 2017 and shall be issued as fully registered Securities in denominations of One Hundred Thousand Dollars and, at the option of the Company, in any integral multiple or multiples thereof (the exercise of such option to be evidenced by the execution and delivery thereof); they shall bear interest at the rate of 8.01% per annum, payable on November 30, 1997 for the period from and including the original date of issuance thereof to November 30, 1997, and semi-annually on May 30 and November 30 of each year thereafter until Maturity; the principal of, premium, if any, and interest on each said Security to be payable at the office or agency of the Company in Apopka, Florida, in such coin or currency of the United States of America as at the time of payment is legal tender for public and private debts. Securities of the Fourth Series shall be dated as in the Indenture provided. Interest on the Securities of the Fourth Series shall be computed on the basis of a 360-day year of twelve thirty-day months. If the Company shall default in the payment of the principal of, or premium or interest on, any Security of the Fourth Series, the Company shall pay to the Holder of such Security such overdue principal, premium or interest, together with interest on such overdue principal and (to the extent permitted by law) on such overdue premium or interest at that rate of interest that is the greater of (a) two percent (2%) per annum above the rate borne by such Security immediately prior to such default or (b) two percent (2%) over the rate of interest publicly announced by Morgan Guaranty Trust Company in New York, New York, as its "base' or "prime" rate.

The Regular Record Date referred to in Section 207 of the Indenture for the payment of the interest on the Securities of the Fourth Series payable on any Interest Payment Date shall be the first Business Day next preceding such Interest Payment Date.

Section 2.02. Required Redemptions in the Event of Prior First Mortgage Bond Redemptions. If at any time and from time to time, the Company shall notify the Trustee and any Holder of First Mortgage Bonds issued and outstanding under the First Supplemental Indenture or the Second Supplemental Indenture (the "Prior First Mortgage Bonds") of the occurrence of any one or more of the events and conditions described in Sections 3.01(B), 3.01(C), 3.02, 3.03(A), 3.03(B), 3.03(C), 3.03(D), 3.05, 3.06, 3.09, 4.01(B), 4.01(C), 4.02, 4.03(A), 4.03(B), 4.03(C), 4.03(D), 4.05, 4.06 and 4.09 of the Second Supplemental Indenture, then and in such event it shall on the same such date notify in writing (each a "Company Special Redemption Notice") the Holders of the Securities of the Fourth Series,

which Company Special Redemption Notice shall describe in reasonable detail the event or condition which is the basis for such Company Special Redemption Notice. Without limiting the foregoing, if the Company is required for any reason whatsoever to prepay, redeem, purchase or otherwise retire (collectively a "Special Redemption") the Prior First Mortgage Bonds, in whole or in part, then, and in such event, the Company shall, not more than 40 days nor less than 30 days prior to the date on which any such Special Redemption is to occur (any such date of Special Redemption being herein referred to as a "Prior First Mortgage Bond Redemption Date") give written notice (a "Company Notice"): (a) specifying such fact, (b) identifying such Prior First Mortgage Bond Redemption Date, (c) stating that a premium may be payable in connection with such Special Redemption, and, if so, the estimated amount thereof, together with a reasonably detailed computation of such estimated premium, (d) identifying the amount of Securities required to be so redeemed, (e) offering to redeem an aggregate principal amount of Outstanding Securities of the Fourth Series equal to (i) in the case of Special Redemptions pursuant to Sections 3.01(B), 3.01(C), 3.03(A), 3.03(B), 3.03(C), 3.03(D), 3.05, 4.01(B), 4.01(C), 4.03(A), 4.03(B), 4.03(C), 4.03(D) and 4.05 of the Second Supplemental Indenture, a pro rata portion of the amount of Securities required to be redeemed pursuant to such Sections, such pro rata portion to be based upon the ratio of (A) the then Outstanding aggregate principal amount of the Securities of the Fourth Series to (B) the then Outstanding aggregate principal amount of the Securities of the Fourth Series and the Prior First Mortgage Bonds, and (ii) in the case of Sections 3.02, 3.06, 3.09, 4.02, 4.06 and 4.09 of the Second Supplemental Indenture, the aggregate principal amount of the Securities of the Fourth Series, and (f) specifying a date, which shall be not more than 20 days nor less than 10 days prior to such Prior First Mortgage Bond Redemption Date, on which each Holder of the Securities of the Fourth Series must accept or decline such offer of redemption. Each Holder of the then outstanding Securities of the Fourth Series shall have the right to accept such offer and require redemption of the Securities of the Fourth Series held by such Holder by written notice to the Company and the Trustee (a "Bondholder Notice") given not later than the date specified in such Company Notice. The Company shall, on said Prior First Mortgage Bond Redemption Date, redeem on an equal and ratable basis with the Prior First Mortgage Bonds which are to be redeemed on such Prior First Mortgage Bond Redemption Date, the Securities of the Fourth Series Outstanding under the Indenture held by Holders which have so accepted such offer of redemption; provided, however, that to the extent the Holders of the Securities of any Series to be redeemed pursuant to this Section 2.02 or pursuant to the above-referenced Sections of the Second Supplemental Indenture waive any right of redemption or elect not to accept the Company's offer of redemption, an additional principal amount of Securities of the other Series, in an amount equal to the amount so waived or as to which an offer is not accepted, shall be redeemed, distributed pro rata among such other Series based upon the ratio described above, but excluding from clause (B) the principal amount of the Securities of the Series with respect to which there has been a waiver or an offer unaccepted, except to the extent waived by the Holders of the Securities of such other Series; provided further, however, to the extent the Holders of the majority of the Securities of the Second Series and a majority of the Securities of the Third Series, in each case then Outstanding, waive redemption pursuant to the applicable Sections of the Second Supplemental Indenture, then the Company shall have no obligation to redeem Securities of the Fourth Series pursuant to this Section 2.02. The redemption price of the Securities of

the Fourth Series to be so redeemed on such Prior First Mortgage Bond Redemption Date shall be an amount equal to 100% of the outstanding principal amount of the Securities of the Fourth Series so to be redeemed and accrued interest thereon to the date of prepayment, together with a premium equal to the Make-Whole Amount, determined as of two Business Days prior to such Prior First Mortgage Bond Redemption Date.

Section 2.03. Optional Prepayments with Make-Whole Amount. The Company may, at its option, upon notice as provided below, prepay at any time all, or from time to time any part of, Securities of the Fourth Series, in an amount not less than 10% of the aggregate principal amount of Securities of the Fourth Series then outstanding in the case of a partial prepayment, at 100% of the principal amount so prepaid, together with interest accrued thereon to the date of such prepayment, plus the Make-Whole Amount determined for the prepayment date with respect to such principal amount. The Company will give each Holder of Securities of the Fourth Series written notice of each optional prepayment under this Section 2.03 not less than thirty (30) days and not more than sixty (60) days prior to the date fixed for such prepayment. Each such notice shall specify such date, the aggregate principal amount of the Securities of the Fourth Series to be prepaid on such date, the principal amount of each Bond held by such Holder to be prepaid (determined in accordance with Section 2.07), and the interest to be paid on the prepayment date with respect to such principal amount being prepaid, and shall be accompanied by a certificate of an Authorized Officer as to the estimated Make-Whole Amount due in connection with such prepayment (calculated as if the date of such notice were the date of the prepayment), setting forth the details of such computation. Two Business Days prior to such prepayment, the Company shall deliver to each Holder of Securities of the Fourth Series a certificate of an Authorized Officer specifying the calculation of such Make-Whole Amount as of the specified prepayment date.

Section 2.04. Required Prepayment in the Event of Certain Defaults. So long as any Securities of the Fourth Series remain outstanding, if (a) the Company or any Subsidiary is in default (as principal or as guarantor or other surety) in the payment of any principal of or premium or make-whole amount or interest on any Indebtedness that is outstanding in an aggregate principal amount of at least \$5,000,000 beyond any period of grace provided with respect thereto, or (b) the Company or any Subsidiary is in default in the performance of or compliance with any term of any evidence of any Indebtedness in an aggregate outstanding principal amount of at least \$5,000,000 or of any mortgage, indenture or other agreement relating thereto or any other condition exists, and as a consequence of such default or condition such Indebtedness has become, or has been declared (or one or more Persons are entitled to declare such Indebtedness to be), due and payable before its stated maturity or before its regularly scheduled dates of payment, or (c) as a consequence of the occurrence or continuation of any event or condition (other than the passage of time or the right of the Holder of Indebtedness to convert such Indebtedness into equity interests), (i) the Company or any Subsidiary has become obligated to purchase or repay Indebtedness before its regular maturity or before its regularly scheduled dates of payment in an aggregate outstanding principal amount of at least \$5,000,000, or (ii) one or more Persons have the right to require the Company or any Subsidiary so to purchase or repay such Indebtedness, then the Company shall promptly and in any event within two (2) Business Days of the date of

occurrence of any such event notify the Trustee and the Holders of the Securities of the Fourth Series and the Company shall redeem, within sixty (60) days thereafter and upon at least ten (10) days notice, all of the Securities of the Fourth Series then Outstanding, together with interest accrued thereon to the date of redemption, plus the Make-Whole Amount determined for such redemption date two Business Days prior thereto. Two Business Days prior to such redemption, the Company shall deliver to each Holder of the Securities of the Fourth Series a certificate of an Authorized Officer specifying the calculation of such Make-Whole Amount as of the specified redemption date.

Section 2.05. Required Prepayment in the Event of Certain Judgments. So long as any Securities of the Fourth Series remain outstanding, if a final judgment or judgments for the payment of money aggregating in excess of \$10,000,000 are rendered against one or more of the Company and its Subsidiaries and which judgments are not, within sixty (60) days after entry thereof (or such longer period as shall be permitted by the express terms of any such judgment or judgments), bonded, discharged or stayed pending appeal, or are not discharged within sixty (60) days (or such longer period as shall be permitted by the express terms of any such judgment or judgments) after the expiration of such stay, then the Company shall promptly and in any event within two (2) Business Days of the date of occurrence of any such event notify the Trustee and the Holders of the Securities of the Fourth Series and the Company shall redeem, within sixty (60) days thereafter and upon at least ten (10) days notice, all of the Securities of the Fourth Series then Outstanding, together with interest accrued thereon to the date of redemption, plus the Make-Whole Amount determined for such redemption date two Business Days prior thereto. Two Business Days prior to such redemption, the Company shall deliver to each Holder of the Securities of the Fourth Series a certificate of an Authorized Officer specifying the calculation of such Make-Whole Amount as of the specified redemption date.

Section 2.06. Required Prepayment in the Event of Certain ERISA Defaults. So long as any Securities of the Fourth Series remain outstanding, if (a) any Plan shall fail to satisfy the minimum funding standards of ERISA or the Code for any plan year or part thereof or a waiver of such standards or extension of any amortization period is sought or granted under section 412 of the Code, (b) a notice of intent to terminate any Plan shall have been or is reasonably expected to be filed with the PBGC or the PBGC shall have instituted proceedings under ERISA Section 4042 to terminate or appoint a trustee to administer any Plan or the PBGC shall have notified the Company or any ERISA Affiliate that a Plan may become a subject of any such proceedings, (c) the aggregate "amount of unfunded benefit liabilities" (within the meaning of Section 4001(a)(18) of ERISA) under all Plans, determined in accordance with Title IV of ERISA, shall exceed \$1,000,000, (d) the Company or any ERISA Affiliate shall have incurred or is reasonably expected to incur any liability pursuant to Title I or IV of ERISA or the penalty or excise tax provisions of the Code relating to employee benefit plans, (e) the Company or any ERISA Affiliate withdraws from any Multiemployer Plan, or (f) the Company or any Subsidiary establishes or amends any employee welfare benefit plan that provides post-employment welfare benefits in a manner that would increase the liability of the Company or any Subsidiary thereunder; and any such event or events described in clauses (a) through (f) above, either individually or together with any other such event or events, could reasonably be expected to

have a Material Adverse Effect, then the Company shall promptly and in any event within two (2) Business Days of the date of occurrence of any such event notify the Trustee and the Holders of the Securities of the Fourth Series and the Company shall redeem, within sixty (60) days thereafter and upon at least ten (10) days notice, all of the Securities of the Fourth Series then Outstanding, together with interest accrued thereon to the date of redemption, plus the Make-Whole Amount determined for such redemption date two Business Days prior thereto. Two Business Days prior to such redemption, the Company shall deliver to each Holder of the Securities of the Fourth Series a certificate of an Authorized Officer specifying the calculation of such Make-Whole Amount as of the specified redemption date.

As used in this Section 2.06, the terms "employee benefit plan" and "employee welfare benefit plan" shall have the respective meanings assigned to such terms in Section 3 of ERISA.

Section 2.07. Allocation of Partial Prepayments. In the case of each partial prepayment of the Securities of the Fourth Series, the principal amount of the Securities of the Fourth Series to be prepaid shall be allocated among all of the Securities of the Fourth Series at the time outstanding in proportion, as nearly as practicable, to the respective unpaid principal amounts thereof not theretofore called for prepayment.

Section 2.08. Maturity; Surrender, Etc. In the case of each prepayment of Securities of the Fourth Series pursuant to this Article Second, the principal amount of each of the Securities of the Fourth Series to be prepaid shall be and become due and payable on the date fixed for such prepayment, together with interest on such principal amount accrued to such date and the applicable Make-Whole Amount, if any. From and after such date, unless the Company shall fail to pay such principal amount when so due and payable, together with the interest and Make-Whole Amount, if any, as aforesaid, interest on such principal amount shall cease to accrue. Any Security of the Fourth Series paid or prepaid in full shall be surrendered to the Company and cancelled and shall not be reissued, and no Security of the Fourth Series shall be issued in lieu of any prepaid principal amount of any Security of the Fourth Series.

Section 2.09. Purchase of Securities of the Fourth Series. The Company will not and will not permit any Affiliate to purchase, redeem, prepay or otherwise acquire, directly or indirectly, any of the outstanding Securities of the Fourth Series except upon the payment or prepayment of the Securities of the Fourth Series in accordance with the terms of this Third Supplemental Indenture and the Securities of the Fourth Series. The Company will promptly cancel all Securities of the Fourth Series acquired by it or any Affiliate pursuant to any payment, prepayment or purchase of Securities of the Fourth Series pursuant to any provision of this Third Supplemental Indenture and no Securities of the Fourth Series may be issued in substitution or exchange for any such Securities of the Fourth Series.

Section 2.10. Make-Whole Amount. The term "Make-Whole Amount" means, with respect to any Security of the Fourth Series, an amount equal to the excess, if any, of the Discounted Value of the Remaining Scheduled Payments with respect to the Called Principal of such Security of the Fourth Series over the amount of such Called Principal; provided

that the Make-Whole Amount may in no event be less than zero. For the purposes of determining the Make-Whole Amount, the following terms have the following meanings:

"Called Principal" means, with respect to any Security of the Fourth Series, the principal of such Security of the Fourth Series that is to be prepaid pursuant to Section 2.02 (if the related prepayment, redemption or retirement of Prior First Mortgage Bonds is made with a premium), Section 2.03, Section 2.04, Section 2.05, Section 2.06 or has become or is declared to be immediately due and payable pursuant to Section 1102 of the Original Indenture, as the context requires.

"Discounted Value" means, with respect to the Called Principal of any Security of the Fourth Series, the amount obtained by discounting all Remaining Scheduled Payments with respect to such Called Principal from their respective scheduled due dates to the Settlement Date with respect to such Called Principal, in accordance with accepted financial practice and at a discount factor (applied on the same periodic basis as that on which interest on the Securities of the Fourth Series is payable) equal to the Reinvestment Yield with respect to such Called Principal.

"Reinvestment Yield" means, with respect to the Called Principal of any Security of the Fourth Series, 0.50% over the yield to maturity implied by (a) the yields reported, as of 10:00 A.M. (New York City time) on the second $\,$ Business Day $\,$ preceding the $\,$ Settlement $\,$ Date with respect to such Called Principal, on the display designated as "Page USD" of the Bloomberg Financial Markets Services Screen (or, if not available, any other national recognized trading screen reporting on-line intraday trading in the U.S. Treasury securities) for actively traded U.S. Treasury securities having a maturity equal to the Remaining Average Life of such Called Principal as of such Settlement Date, or (b) if such yields are not reported as of such time or the yields reported as of such time are not ascertainable, the Treasury Constant Maturity Series Yields reported, for the latest day for which such yields have been so reported as of the second Business Day preceding the Settlement Date with respect to such Called Principal, in Federal Reserve Statistical Release H.15 (519) (or any comparable successor publication) for actively traded U.S. Treasury securities having a constant maturity equal to the Remaining Average Life of such Called Principal as of such Settlement Date. Such implied yield will be determined, if necessary, by (i) converting U.S. Treasury bill quotations to bond-equivalent yields in accordance with accepted financial practice and (ii) interpolating linearly between (1) the actively traded U.S. Treasury security with the duration closest to and greater than the Remaining Average Life and (2) the actively traded U.S. Treasury security with the duration closest to and less than the Remaining Average Life.

"Remaining Average Life" means, with respect to any Called Principal, the number of years (calculated to the nearest one-twelfth year) obtained by dividing (a) such Called Principal into (b) the sum of the products obtained by multiplying (i) the principal component of each Remaining Scheduled Payment with respect to such Called Principal by (ii) the number of years (calculated to the nearest one-

twelfth year) that will elapse between the Settlement Date with respect to such Called Principal and the scheduled due date of such Remaining Scheduled Payment.

"Remaining Scheduled Payments" means, with respect to the Called Principal of any Security of the Fourth Series, all payments of such Called Principal and interest thereon that would be due after the Settlement Date with respect to such Called Principal if no payment of such Called Principal were made prior to its scheduled due date; provided that if such Settlement Date is not a date on which interest payments are due to be made under the terms of the Securities of the Fourth Series, then the amount of the next succeeding scheduled interest payment will be reduced by the amount of interest accrued to such Settlement Date and required to be paid on such Settlement Date pursuant to Section 2.02 (if the related prepayment, redemption or retirement of Prior First Mortgage Bonds is made with a premium), Section 2.03, Section 2.04, Section 2.05, Section 2.06 or has become or is declared to be immediately due and payable pursuant to Section 1102 of the Original Indenture.

"Settlement Date" means, with respect to the Called Principal of any Security of the Fourth Series, the date on which such Called Principal is to be prepaid pursuant to Section 2.02 (if the related prepayment, redemption or retirement of Prior First Mortgage Bonds is made with a premium), or Section 2.03, Section 2.04, Section 2.05, Section 2.06 or has become or is declared to be immediately due and payable pursuant to Section 1102 of the Original Indenture, as the context requires.

ARTICLE THIRD

ADDITIONAL COVENANTS FOR FOURTH SERIES

Section 3.01. Debt Covenant Required Redemption. So long as any Securities of the Fourth Series shall remain Outstanding, the Company shall file with the Trustee, on or before March 31 of each calendar year, an Accountant's Certificate showing as of December 31 of the immediately preceding calendar year (1) the aggregate principal amount of Securities then Outstanding and (2) the net book value of property, plant and equipment, determined in accordance with GAAP, which constitute Property Additions. If such aggregate principal amount of Securities then Outstanding exceeds sixty per centum (60%) of the net book value of such property, plant and equipment then the Company shall promptly notify the Trustee and, if there is only one Holder of Securities of the Fourth Series, such Holder; and the Company shall redeem, within ninety days thereafter and upon at least thirty days' notice, a principal amount of the Securities of such Series then Outstanding equal to a pro rata portion of the amount necessary to cause the aggregate principal amount of Securities then Outstanding to equal sixty per centum (60%) of the net book value of such property, plant and equipment, such pro rata portion of such Series to be based upon a ratio of (A) the then Outstanding aggregate principal amount of Securities of such Series to (B) the then Outstanding aggregate principal amounts of the Securities of the Second Series, of the Third Series and of the Fourth Series; provided, however, that to the extent any of the Holders of Securities of the Second Series, of the Third Series or of the

Fourth Series waive any right of redemption, an additional principal amount of Securities of the other Series, in an amount equal to the amount waived, shall be redeemed, distributed pro rata among such other Series based upon the ratio described above, but excluding from clause (B) the principal amount of the Securities of the Series with respect to which there has been a waiver, except to the extent waived by the Holders of the Securities of such other Series. The Redemption Price of the Securities of the Fourth Series shall be the outstanding principal amount of the Securities of such Series to be redeemed pursuant to this Section 3.01 plus the Make Whole Amount plus interest accrued to the Redemption Date. The Holders of a majority of the Securities of the Fourth Series then Outstanding may waive redemption pursuant to this Section 3.01 by delivering a written waiver to the Trustee, in such form as the Trustee shall deem acceptable, with a copy to the Company, within ten days after the date of such notice of redemption.

Section 3.02. Restricted Payments. So long as any Securities of the Fourth Series remain Outstanding, the Company shall not declare or pay any Restricted Payments unless the Company files an Accountant's Certificate with the Trustee and, if there is only one Holder of Securities of the Fourth Series, sends a copy to such Holder, within thirty days prior to such declaration or payment stating that (A) the amount of such payment shall not exceed cumulative net additions to or deductions from Surplus, determined in accordance with GAAP, made after December 31, 1992 (excluding any gains on sale of Property Additions during the immediately preceding 12 months in excess of twenty per centum (20%) of the net additions to Surplus made during such 12 month period); and (B) that after such payment Capital plus Surplus shall equal at least thirty-five per centum (35%) of Capitalization, determined in accordance with GAAP.

Section 3.03. Compliance with Law. The Company will, and will cause each of its Subsidiaries to, comply with all laws, ordinances or governmental rules or regulations to which each of them is subject, including, without limitation, Environmental Laws, and will obtain and maintain in effect all licenses, certificates, permits, franchises and other governmental authorizations necessary to the ownership of their respective properties or to the conduct of their respective businesses, in each case to the extent necessary to ensure that non-compliance with such laws, ordinances or governmental rules or regulations or failures to obtain or maintain in effect such licenses, certificates, permits, franchises and other governmental authorizations could not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect.

Section 3.04. Payment of Taxes and Claims. The Company will, and will cause each of its Subsidiaries to, file all tax returns required to be filed in any jurisdiction and to pay and discharge all taxes shown to be due and payable on such returns and all other taxes, assessments, governmental charges, or levies imposed on them or any of their properties, assets, income or franchises, to the extent such taxes and assessments have become due and payable and before they have become delinquent and all claims for which sums have become due and payable that have or might become a Lien on properties or assets of the Company or any Subsidiary; provided that neither the Company nor any Subsidiary need pay any such tax or assessment or claims if (a) the amount, applicability or validity thereof is contested by the Company or such Subsidiary on a timely basis in good faith and in appropriate

proceedings, and the Company or a Subsidiary has established adequate reserves therefor in accordance with GAAP on the books of the Company or such Subsidiary or (b) the nonpayment of all such taxes and assessments in the aggregate could not reasonably be expected to have a Material Adverse Effect.

Section 3.05. Securities of the Fourth Series to Rank Pari Passu. The Securities of the Fourth Series are and at all times shall remain direct and secured obligations of the Company ranking pari passu as against the assets of the Company with all other First Mortgage Bonds from time to time issued and outstanding under the Indenture without any preference among themselves and pari passu with all other present and future secured Indebtedness (actual or contingent) of the Company issued and outstanding under the Indenture.

Section 3.06. Limitations on Indebtedness. The Company covenants that so long as any of the Securities of the Fourth Series are outstanding:

- (a) The Company will not, and will not permit any Subsidiary to, create, issue, assume, guarantee or otherwise incur or in any manner become liable in respect of any Indebtedness, except:
 - (i) Indebtedness evidenced by the Securities of the Fourth Series;
 - (ii) Indebtedness of the Company evidenced by the Prior First Mortgage Bonds;
 - (iii) additional Securities of the Company issued and outstanding within the limitations of the Indenture; provided that at the time of creation, issuance, assumption, guarantee or incurrence thereof and after giving effect thereto and to the application of the proceeds thereof:
 - (1) Consolidated Indebtedness shall not exceed 65% of Consolidated Total Capitalization;
 - (2) the average of the Consolidated Net Income Available for Consolidated Fixed Charges for the four immediately preceding fiscal quarters shall have been at least 150% of the average of the Consolidated Fixed Charges for such four fiscal quarters; and
 - (3) in the case of the issuance of any Indebtedness of the Company secured by Liens permitted by 704 of the Original Indenture and any Indebtedness of a Subsidiary, the sum of (A) the aggregate amount of all Indebtedness secured by Liens permitted by 704 of the Original Indenture plus (B) the aggregate amount of all Indebtedness of Subsidiaries shall not exceed 5% of Consolidated Total Capitalization;

(iv) Indebtedness of a Subsidiary to the Company or to a Wholly-owned Subsidiary.

- (b) The renewal, extension or refunding of any Indebtedness, issued, incurred or outstanding pursuant to Section 3.06(a) shall constitute the issuance of additional Indebtedness which is, in turn, subject to the limitations of the applicable provisions of this Section 3.06.
- (c) Any Person which becomes a Subsidiary after the date hereof shall for all purposes of this Section 3.06 be deemed to have created, assumed or incurred at the time it becomes a Subsidiary all Indebtedness of such Person existing immediately after it becomes a Subsidiary.

Section 3.07. Transactions with Affiliates. The Company will not, and will not permit any Subsidiary to, enter into or be a party to any transaction or arrangement with any Affiliate (including, without limitation, the purchase from, sale to or exchange of property with, or the rendering of any service by or for, any Affiliate), except in the ordinary course of and pursuant to the reasonable requirements of the Company's or such Subsidiary's business and upon fair and reasonable terms no less favorable to the Company or such Subsidiary than would obtain in a comparable arm's-length transaction with a Person other than an Affiliate.

Section 3.08. Termination of Pension Plans. The Company will not and will not permit any Subsidiary to withdraw from any Multiemployer Plan or permit any employee benefit plan maintained by it to be terminated if such withdrawal or termination could result in withdrawal liability (as described in Part 1 of Subtitle E of Title IV of ERISA) or the imposition of a Lien on any property of the Company or any Subsidiary pursuant to Section 4068 of ERISA.

Section 3.09. Limitations on Restrictive Agreements. The Company will not and will not permit any Subsidiary to, enter into, or suffer to exist, any agreement with any Person which, directly or indirectly, restricts or limits the ability of the Company to amend, modify, waive, supplement or otherwise alter the terms applicable to the Securities of the Fourth Series, or the Indenture or to prepay, pay, or redeem, optionally or otherwise, the Securities of the Fourth Series.

Section 3.10. Amendment or Waiver of Covenants. The provisions of this Article Third may be waived or amended, at the request of the Company, with the written consent of the Holders of at least a majority of the aggregate principal amount of the Securities of the Fourth Series then Outstanding.
